

HELP! I'VE BEEN MUGGED!

Have you been making mugs? Would you like to embellish them with a different surface treatment? Or, are you ready to break away from a standard coffee mug and make other drinking vessels? Join us as we expand our 'mug' vocabulary and consider function, volume, rim thickness, and handle placement. Intermediate and beginning potters can develop throwing skills and learn new surface techniques in this session dedicated to drinking vessels.

Projects include:

- Coffee Mugs
- Soup Mugs
- Squared, footed Mugs
- Irish-coffee Mugs
- Steins
